After parking in the guest area indicated, proceed to the main building entrance under the canopy.

Inform the person at the desk that you would like to visit the model railroad. They will give you directions and will show you how to operate the alarm controlled door that helps them manage Alzheimer's residents.

You will proceed down a long hall to an elevator that you can take to the lower level. Follow the corridor to your left past a number of offices until you see the popcorn cooking cart.
